PROFESSIONAL EXPERIENCES

Amundi (CPR AM)

Paris, France

General Secretary intern

May 2023 – July 2023

- Supported institutional mandate acquisition for CPR AM, contributing to successful RFPs and due diligences (including securing a €100M BNP Paribas mandate) for tenders typically ranging from €80–150M (JP Morgan, CA, AXA IM).
- Compelling presentation on the importance of automating due diligence responses to the entire company (200 people).
- Updating due diligences questionnaires for CPR AM and checking procedures of the company with department managers.

Job simulation in S&T – Citi, Bank of America, Standard Chartered

Paris, France

- Delivered actionable S&T recommendations by analysing macro shifts (Fed +75bps), market momentum (Renewables +2.5%, Tech underperforming), and volatility stress scenarios (VIX +15%), producing client-ready trade ideas such as long Renewables, short Tech, and volatility-hedged index exposures.
- Enhanced workflow efficiency by 30% through automation and structured templates, and built data-driven diversification strategies reallocating assets across equities, fixed income and ESG-aligned sectors based on risk-return optimisation.

PROJECTS (more information on my [GitHub](#))

- **Bond yield curve (VBA OOP /SQL)** : Development of an Excel tool for calibrating yield curves from an Access database, with implementation of interpolation methods (linear, polynomial, Nelson-Siegel).
- **Portfolio management (VBA)** : survivor bias, performance indicators alculatation and HF's alpha study using CAPM.
- **Financial data analysis (Python)** : interactive visualization and statistical processing of financial series.
- **Option pricing (Python)** : Development of a valuation model (Black-Scholes and Monte Carlo simulation).
